

COMPREHENSIVE PROGRAM OF PROFESSIONAL, SUSTAINABLE, ENERGIZED (AGRO-HOMEODYNAMICS) PRODUCTS FOR PLANTS CARE AND STRENGTHENING VITALITY OF PLANTS AND ECOSYSTEMS, WHICH INDIRECTLY AFFECT ON PLANTS RESISTANCE OF PLANTS DISEASES AND PESTS AND ON STRENGTHENING OF ENERGY BALANCE OF SPRAYED ECOSYSTEMS. MORE VITAL PLANTS ARE MORE RESISTANT TO PLANTS DISEASES AND PESTS.

Some scientific confirmations/explanations of the principles of operating of products Cora agrohomeopathie®

-Some brief scientific explanation/ of basic principles of development and operation of breakthrough innovative, natural, energized products Cora agrohomeopathie®

-Some explanations of developer and only manufacturer (producer) of products Cora agrohomeopathie®

By Author: Ing. Majda Ortan, manager of company and owner of company PH. Agrohom., Majda Ortan, s.p.

In view of the breakthrough innovation implemented in natural, energized, homeodinamics Cora agrohomeopathie® products, it is very welcome that in recent scientific articles, the themes from the basic concepts on which the development and operation of Cora agrohomeopathie® products are based, are published. These basic concepts/principles are:

- homeodynamics,
- homesis, xenohormesis,
- homethic ecosystems, eustress management compounds of biotic origin,
- equilibrium between xenohormetic potential and yields / crops, quantum mechanical behavior biological systems that are involved in photosynthesis (About their scientific proven was first time published in May, 2018),
- shapes of energy patterns.

Newertheless, that I started with development of those products as teen-ager (= before around 40 years ago) and placed those products Cora agrohomeopathie® program on Slovenian market around 6 years ago, the scientific confirmations of basic principles of development and special technology of producing those innovative, natural, energized products Cora agrohomeopathie® finally catching up principles, which have been already

COMPREHENSIVE PROGRAM OF PROFESSIONAL, SUSTAINABLE, ENERGIZED (AGRO-HOMEODYNAMICS) PRODUCTS FOR PLANTS CARE AND STRENGTHENING VITALITY OF PLANTS AND ECOSYSTEMS, WHICH INDIRECTLY AFFECT ON PLANTS RESISTANCE OF PLANTS DISEASES AND PESTS AND ON STRENGTHENING OF ENERGY BALANCE OF SPRAYED ECOSYSTEMS.

several decades implemented in practical development and in practical special technology of producing of products Cora agrohomoepathie®.

»Living systems survive by virtue of a set of defensive maintenance and repair systems which comprise their homeodynamic ability. A large number of interacting genes and genetic networks constitute this machinery, the exact details of which are yet to be unravelled. **Successful homeodynamics is crucial for the growth, development and maturation of an organism until the reproduction and continuation of generations is assured. Homeodynamics is thus a longevity assurance mechanism, whose strength, efficiency and range have evolved in accordance with the evolutionary history of the species. Survival beyond the required essential lifespan of a species is necessarily accompanied by the progressive accumulation of random molecular damage. The progressive failure of homeodynamics leads to the physiological malfunctioning manifested as a general functional decline, diseases and ultimate death.**« [1]

»**Hormesis is intelligent life strategy of all living organisms.**«[1]

»**It's also intelligent life strategy of all living ecosystems.** « [2]

»The phenomenon of hormesis has been observed mainly for the response of individual organisms to stress. A reasonable line of inquiry might explore the possibility of observing hormesis at other levels of ecological organization. This initial examination focuses on ecosystem hormesis. Explorations of hormetic responses of ecosystems to stress cannot be made independently of a fundamental concept of ecosystem. **The scale-dependence of ecosystem dynamics also influences whether an ecological disturbance is in reality a stressor.** Ecosystem hormesis might be claimed if one or more components of an ecosystem exhibit hormesis. By this definition, ecosystem hormesis would be a trivial extension of hormesis observed for individual organisms. A non-trivial extension of ecosystem hormesis would include the observation that integrated (*i.e.*, holistic) measures of ecosystem structure or function displayed an hormetic response to an ecological stressor. **Several such examples of ecosystem structural and functional hormesis are presented.**« [2]

For (agricultural) plants with impaired own immunology, with weakened own resistance, with broken/weakened balance, are the "stressors" of "**eustress**" (**beneficial stress**), also appropriate energized suitable plant mineral complex from energy-balanced, vital ecosystems. The plant have hormesis responds to them, so they strengthen plants own

COMPREHENSIVE PROGRAM OF PROFESSIONAL, SUSTAINABLE, ENERGIZED (AGRO-HOMEODYNAMICS) PRODUCTS FOR PLANTS CARE AND STRENGTHENING VITALITY OF PLANTS AND ECOSYSTEMS, WHICH INDIRECTLY AFFECT ON PLANTS RESISTANCE OF PLANTS DISEASES AND PESTS AND ON STRENGTHENING OF ENERGY BALANCE OF SPRAYED ECOSYSTEMS.
MORE VITAL PLANTS ARE MORE RESISTANT TO PLANTS DISEASES AND PESTS.

immunology, plants own vitality and thus – implicit through plants vitality also plants own resistance to plants diseases, plants pests, plants stress.

Our approach:

1. For every single sort products from wide range of offer of products Cora agrohomoepathie®, is made energization from specific start tinctures, which are mixtures (complexis) of very carefully selected plants and minerals, in their appropriate proportions. In addition to the type of plants and minerals, the ecosystem from which they are taken and the Cosmic - Earth rhythms at the time of their taken, are important for the good functioning of products. From the point of view of the functioning of the products, this has do with strengthening the vitality and thus also strengthening of indirect resistance of plants to diseases, pests, and stresses, that are covered by a particular product. In order to avoid additional stress, our products are properly energized, their effect are directly on plants, on the energy level of plants. Of course, this also starts to reflect on the physical level of plants.
2. Another, significant, indispensable component of our products is so-called U starting tincture (intelligent, naturally, energized, C12 / C13 homeodynamic balance). This tincture is added to each of our products in an appropriately energized form. This natural energized additive has a potent (strengthening) influence on the plant adaptation to the changing ratio of isotopes C12/C13. The starting natural ingredient for this energized product is the wood of a specific, appropriate tree. The thin cross-section of this wood trunk was taken off and converted to the initial energized tincture (U0). This tincture was buried in the soil for nine years in a suitable place (ecosystem) and is thus exposed to the Cosmic - Earth forces for the 9 years cycle period - and, at the same time it is exposed to the current evolutionary factors that cause dynamically changing isotope C12 / C13 ratio. After three years, this tincture was dug out of the earth, again additionally homodynamically energized (U3) and re-buried in the soil. The same procedure is repeated after six years (U6). After nine years, this tincture has been dug up and received its final energization (U9). Needed is whole time period of nine years underground of the effects of cosmic earth forces on my own developed U(3, 6, 9) tinctures. *Why is the same effect impossible get without taking into account year periods 3, 6, 9 (Nikola Tesla numbers 3, 6, 9), is possible to know or to understand or even both. For those, who are interested in*

COMPREHENSIVE PROGRAM OF PROFESSIONAL, SUSTAINABLE, ENERGIZED (AGRO-HOMEODINAMICS) PRODUCTS FOR PLANTS CARE AND STRENGTHENING VITALITY OF PLANTS AND ECOSYSTEMS, WHICH INDIRECTLY AFFECT ON PLANTS RESISTANCE OF PLANTS DISEASES AND PESTS AND ON STRENGTHENING OF ENERGY BALANCE OF SPRAYED ECOSYSTEMS. MORE VITAL PLANTS ARE MORE RESISTANT TO PLANTS DISEASES AND PESTS.

scientific mathematical treatment and justification, some interesting are in the source [6].

On this way products Cora agrohhomeopathie® powers strengthening plants own vitality to manage **eustress compounds of biotic origin in plants, that create a xenohormetic condition to induce equilibrium between xenohormetic potential and plants as well their yields/ crops.**

Quantum mechanical behavior of biological systems that are involved in plant's photosynthesis are mode of it's operation – all the time, not only since May 2018, when science confirmed it. So, energized mode of operation of our products have important sense, mainly in those times of Climatic changes relating problems regarding agriculture. The evolutionary development of plants in these times requires the adaptation of plants to the changing ratio of isotope C12 / C13. All life processes of the plants are directly or implicit connected with those ratio.

Plants and soils, that have been treated for decades with material additives for fertilizing and protecting plants, that have a large and or longterm proportion of chemical (synthetic) origin, are for this evolutionary response in poor condition - many of them are poorly resistant or non-resistant.

The inovative, natural, homeodinamic products Cora agrohhomeopathie® on plants create xenohormetic condition to induce equilibrium between (natural) xenohormetic potential and plants, as well their yields /crops. This is of great importance from natural mode of strengthening plants own vitality and implicate their own resistance (to diseases, pests, stress), as well is considered that those products will be of great importance because of the climate change scenario for agriculture, while this also allows the organism to acclimate to its new environment, which is a key factor in the evolutionary process.

Want to know more, want to learn more?

If yes:

- You are welcome to attend **our Academy program** - suitable for professionals in the field of modern, advanced and sustainable agriculture, ecology, climate change and their mitigation. Please, write to me for **Academy program** and conditions of participation.

Email contact: ortan.m@gmail.com

COMPREHENSIVE PROGRAM OF PROFESSIONAL, SUSTAINABLE, ENERGIZED (AGRO-HOMEODYNAMICS) PRODUCTS FOR PLANTS CARE AND STRENGTHENING VITALITY OF PLANTS AND ECOSYSTEMS, WHICH INDIRECTLY AFFECT ON PLANTS RESISTANCE OF PLANTS DISEASES AND PESTS AND ON STRENGTHENING OF ENERGY BALANCE OF SPRAYED ECOSYSTEMS. MORE VITAL PLANTS ARE MORE RESISTANT TO PLANTS DISEASES AND PESTS.

- You are welcome to attend in **our web side library** and know more from **my e-books and articles**. Publishing starting in November 2018 on our EN web site: http://cora-agrohomeopathie.com/en/?noredirect=en_US

Want to become our supporter and so part of our community?

If yes:

- We will be happy to publish your logo on our web site? Please, write to me for **commercial** conditions of advertising. Email contact: ortan.m@gmail.com

Want to use products Cora agrohomeopathie®?

If yes:

- We are working hard to come to foreign markets, mainly on other continents, outside of EU. Please, write to me for **possibilities information exchange**. Email contact: ortan.m@gmail.com

Want to business cooperate with us as Holder of exclusive rights for distribution of products Cora agrohomeopathie®, under certain conditions?

If yes:

- We are opened for such way of long term business cooperation with right companies. If you are interested, able and capable for this, please write to me. Email contact: ortan.m@gmail.com

Want to donate to us?

If yes:

- Thank you to do it! Please, write to me and please refer to this post to may understand your email message as authentic. We will send to you the company information required for a bank transfer of donation. Email contact: ortan.m@gmail.com

MORE VITAL PLANTS ARE MORE RESISTANT TO PLANTS DISEASES AND PESTS.

Want to work with us as employee?

If yes:

Our vision is to become and become a global company. This is needed, to be possible our needed, actual, sustainable products, their innovative, needed solutions, offer to masses of people, to countries, which suffer regarding Climate change, to the world of agriculture, to many, many farmers and home gardeners.

- Interested, professional, efficient co-workers who are capable of teamwork as well as individual work, we need to realize bold, advanced, useful, innovative and sustainable goals. If you are really such, please contact me and add your CV to your message.
