

Why we decided to offer this our Academy Program?

First reason is – it's needed in those times of Climate changes and problems in agriculture, while its about advanced, sustainable technologies, which help agricultural plants to adapt themselves regarding actual circumstances of climate change. So, it spread knowledge and our own experiances – so it bettereng life of farmers and also food consumers as well as contribute to mitigation of effects of Climate change.

Regarding to our breakthrough, innovative, energized and sustainable products without active substances, (for strengthening plants vitality and thus implicitly also their own resistance to plants diseases, pests, stress), people world-wide want and need to better understand their concept and principles of such kind products developing, producing and of operating. So, we decided to share our rare, high valuable, innovative knowledge and own experiences, which allow us to did and do this great job to developed, producing and sale our own developed natural,

energized, sustainable products without active substances for use in crops growing/production and by plants care!

With our Academy program we world-wide obtain suitable knowledge to support market developing as well as supporting professional structures in fields of agro – crops growing and environmental systems to they from us get this advanced, nowadays very much needed knowledge (agricultural consultants, development staff, policy makers for agriculture and climate change mitigation, bigger distributors sale nets, etc.). This knowledge and experience should be also on this way available to farmers, gardeners, home gardeners.

All those, who will successfully complete the program of this our Academy with active participation, will receive our certificate of education / training, that allows them to use those knowledge in their work as well to spread the acquired knowledge – for sharing needed knowledge to those, who advise to farmers, gardeners, home – gardeners, to those, who plane strategies for activities regarding reducing use of pesticide, sustainability, mitigation of climate changes, growing “energy alive food”, also for bigger distributors sale nets etc.

The best knowledge about those topics you may know/get from those, who already successful use it – on the fields of development technology and this kind of products and in cooperation with farmers and gardeners, to achieved many good practice and spread them! So, we are for sure the best possible choice for share those our knowledge with you and mentoring you on this field.
