Innovative, sustainable solutions, that positively contribute to the quality of
offer Slovenian National Park,
to the sustainable development of the rural environment!
Products Cora agrohomeopathie with sustainable way of help to the buxus,
also contribute to maintaining buxus plantations,
which are part of the protected cultural and historical heritage

Implementation of best practices

**CASE OF BEST PRACTICE : Experiences with Cora agrohomeopathie™
solutions for buxus:**

- *Solution: strenghtening to avoid problems with fungal disease of buxus (Cilyndrucladium buxicola)*
- *Solution: strenghtening to avoid problems with caterpillars of buxus moth (Cydalima perspectalis)*

An example of agroecological good practice

SLOVENIAN PARK: ARBORETUM Volčji Potok:
Products Cora agrohomeopathie SOLVE conditions of Boxwood infection
with fungus *Cylindrocladum buxicola* and with caterpillars of boxwood
moth (*Cydalima perspectalis*)

(Upper side photos were taken on 4th of April 2015- before spring-spraying; the lower side photos were taken on 3rd of May 2015- after springing treatment with Cora agrohomeopathie products)

Upper side photos were taken on 23. of february 2016- after 3 cyclus of springing treatment with Cora agrohomeopathie products)

What were the observations of agronomists from the Arboretum After using the solution of program products Cora ahrohomeopathie™

- Already after the first spray cycle, the dry bushes of buxus, started with new growth.
- Plants were during the year vitality, healthier.
- Caterpillars of box moth occurred before the second spraying (in early August 2015), for a couple of days after spraying, stopped eating boxus leaves, after a few days they couldn't no be observed any more.
- Boxwood is also a year - in spring 2016 in good shape, it looks incomparably better than last year.
- With the strengthening of buxus per the program with products Cora agrohomeopathie™, we will continue in 2016.

- On the topic of profesional monitoring of effectivness of that program, has business associate of company Arboretum Volčji potok, graduated on the higher school of Horticulture and Visual Arts in Celje, Slovenia. His diploma work is part of the collections of the school-library and **so this good practice disseminate among Slovenian students of horticulture.**

Already after first two days of the first spray cycle, the dry bushes of buxus, started with new growth.

PRODUCTS Cora ahrohomeopathie™ on sustainable way of help to the buxus, also contribute to maintaining buxus plantations, which are part of the protected cultural and historical heritage

Project Buxus, Slovenia National Park Arboretum, Volčji potok, Slovenia, EU

Arboretum
VOLČJI POTOK

PRODUCTS ARE:

- without carbon footprint during their production,
- expiration date is 3 years.

INNOVATIVE PRODUCTS WITHOUT ACTIVE SUBSTANCES

AND
WITH ZERO CARBON FOOTPRINT
during their production

Sustainable cultivation
with strengthening the vitality of the plants!

If you want to find
the secrets of the
Universe,
think in terms of
energy, frequency
and vibration.

**NATURAL, SUSTAINABLE
PRODUCTS
WITHOUT ACTIVE
SUBSTANCES**
and with **ZERO CARBON
FOOTPRINT**
during their production,
which **CAN SUCCESSFULLY
REPLACE MANY PESTICIDES**
in **AGRICULTURE, GARDENING,
HOME-GARDENING**
and **HORTICULTURE**
